SHAPING YOUR STYLE FOR 35 YEARS

Heritage has been the first name in luxurious bathrooms for over 35 years, transforming thousands of homes across the UK. However, right from the start, we have always strived to provide the best choice and flexibility around so you can take our styles and create something truly unique.

At Heritage Bathrooms, we always go the extra mile to give your bathroom that personal touch. With vibrantly versatile suites like the Dorchester, you can customise every inch of your dream design, from signature basin styles to practical aspects like the number of tap holes, as well as paintable cast iron baths for beautifully crafted, bespoke designs. Quite simply, if you can imagine it, Heritage Bathrooms can help you make it a reality.

QUALITY THAT LASTS

For decades now, Heritage has effortlessly combined iconic styling with unbeatable quality and service. Crafted from the finest materials and rigorously tested, our products guarantee a bathroom with a timeless appeal that's made to last.

PRECISION COLOUR MATCHING

Nothing less than perfect will do, that's why we use a colour spectrophotometer. Infinitely more accurate than a human eye, it can pinpoint any possible colour.

EXHAUSTIVE SHOWER TESTING

Our showers aren't just tested, they're put through the equivalent of 130 years of continual use. Brilliant for those who love a nice long shower.

INTENSE TAP TESTING

We use a water pressure of 25 bars to test our taps. That's five times more than standard UK water pressure. Rest assured, they're built to last.

EXCEPTIONAL MATERIALS

To create the finest bathrooms, you need the finest materials. We use Cornish Kaolin clay to create our sanitaryware, quite simply one of the best in the world.

FORENSIC STANDARDS

We pride ourselves on outstanding quality. That's why our Testing Laboratory is uniquely certified by the United Kingdom Accreditation Service (UKAS) to the same exacting standards as a forensic lab.

LASER GUIDED ACCURACY

We know the importance of everything being just so. That's why we laser-etch our logo onto our sanitaryware. It's the only way to make sure it's perfectly parallel to the waterline.

Blenheim Range

BASINS FOR EVERY BATHROOM

Washstands. Vanity units. Small basins, tall basins, angular and rounded. We've thought of every option when it comes to our basins, considering designs for all shapes, sizes and styles. Take Blenheim, for instance, a suite that juxtaposes period elegance with modern simplicity. Our single console basin adds grandeur to any bathroom, while a standard basin is perfect for family spaces. Or, should you be looking to add storage to a cloakroom, there's our Caversham vanity unit featuring four distinctive on-trend finishes. Quite simply, there's no such thing as 'just a basin' when you're out to create something truly individual.

Claverton Range

STYLE IT YOUR WAY

Inspired by Georgian styling, Claverton is soft, elegant and beautifully understated. However, above all else, it's seriously versatile. Set the basin on a pedestal, washstand, or choose furniture from our Caversham collection, to bring your vision to life. Thanks to the sheer flexibility of this suite, you really can create any feel and style. Against soft, pastel shades and delicately patterned floor tiles, it's sumptuous and feminine. Alternatively, complement it against wooden flooring, dark tiles with contrast grouting and cool accessories and it becomes slick, stylish and masculine. Just imagine the possibilities.

Dorchester Range

DESIGNED FOR EVERY SPACE

Effortlessly elegant, Dorchester offers 18 different basins in both rounded and square styles, so you're sure to find something that perfectly suits your vision. For a seriously sophisticated look, pair Dorchester's period detailing with a Caversham vanity unit to create something truly distinctive. With Dorchester's breadth of range and its options to mix and match, you can apply your own distinctive style across your entire home - including family bathrooms, en suites, and cloakrooms - easily and consistently.

Dorchester Suite p58

Granley Range

TIMELESS PIECES FOR BEAUTIFUL BATHROOMS

The epitome of period design, the striking angles and delicate details of Granley take inspiration from the Edwardian era. However, despite its historical influences, Granley is totally timeless. Still one of our most popular designs, it brings a head-turning grandeur to any bathroom. As with all of our suites, Granley is a blank canvas. Style in contemporary monochrome, elegant pastel, or with opulent shades and a statement Heritage cast iron bath. There simply is no limit to what you can achieve.

Granley Deco Range

MAKE PERIOD STYLE YOUR OWN

If you love the Art Deco styling of the 1930's, you'll adore Granley Deco. Neat, angular and seriously chic, it's made for bold styling and inspired pops of colour.

However, when it comes to your bathroom, there's no need adhere so faithfully to a certain period. While our suites are influenced by some of the most iconic of styles, we've designed them to be versatile too. If you have the space, why not include 'his and hers' basins, or why not get bold with your bathroom tiling and create a washroom that really wows? A Heritage suite is truly whatever you want it to be.

Victoria Range

A TIMELESS PIECE WITH GORGEOUS DETAILING

With its gorgeous detailing and delicate vintage touches, the Victoria Double Console Basin is truly iconic. This timeless piece fits seamlessly into luxurious spaces though it makes a stunning feature in any bathroom. What's more, the double console is just one piece of the Victoria range. There's plenty more to catch your eye. This period-inspired suite is defined by its romantic detailing and is perfect for traditional bathrooms and classically styled properties. Choose from beautiful basins, high and low-level WCs, as well as options for smaller spaces too.

Wynwood Range

DISCOVER GEOMETRIC COOL

Fusing stunning Art Deco styling with soothing soft pinks, Wynwood creates a relaxing and contemporary escape. Taking its name from the super swish Wynwood region of Miami, filled with chic hotels and waving palm trees, this suite adds more than a touch of East Coast cool to any bathroom. Wynwood boasts slick lines, angles and high impact styling. Its beautiful 800mm wide basin alone looks stunning paired with fashionable Somersby taps and an Abingdon chrome washstand. With carefully chosen colours and textiles, it's easily the centrepiece of a luxurious, artsy space. Why not see what you could achieve?

Freestanding Acrylic Baths

TIME TO SHINE

When it comes to sheer drama, few things match the impact of our unique freestanding metallic baths. Complete with three lustrous finishes - Gold, Copper or Steel - they add a touch of 'wow' to any bathroom design.

Freestanding Acrylic Baths

LET YOUR IMAGINATION RUN WILD

Quite simply, you've never experienced a bath like Alderley before. Featuring a stunningly textured Mock Croc finish, this double-ended freestanding bath is so sensuous it virtually begs to be touched.

SETTING THE RIGHT TONE

Want to add all the drama of a statement bath but don't want it to grab all the limelight? Our Matt Black or Marble finish allows you to add a wealth of style that effortlessly complements any room.

Osterley Freestanding Acrylic Matt Black Bath p97

Cast Iron Baths

MAKE BATHING BEAUTIFUL

Our signature cast iron baths offer endless possibilities for making your bathroom your own. Whether you're looking for a totally immersive, double-ended bath or an elegant slipper, we'll help make your dream bath a reality. Heritage cast iron baths are designed to be customised with a paintable exterior you can personalise and make your own. However, this beauty isn't purely skin deep. We coat the inner of every cast iron bath with two layers of Class AA enamel, then bake it twice for even greater durability and stain resistance.

Vanity Units

STYLISH STORAGE SOLUTIONS

Carefully planned storage is important in every bathroom. However, when space is at a premium, it's essential.

Our thoughtfully designed vanity units offer a perfect solution. Available in wall-hung or freestanding styles, as well as a range of on trend, painted finishes, they're a stylish hideaway for bathroom essentials. What's more, as vanity units take up no more floor space than a basin, they're able to fit neatly into any space. You don't even have to construct them yourself - we'll deliver them fully assembled.

Fitted Furniture

MIX, MATCH AND MAKE IT YOUR OWN

While a beautiful suite makes a statement, carefully planned furniture takes your room to another level.

Our Caversham fitted furniture comes in a range of sizes and finishes - all of which can be seamlessly colour matched to your suite for the perfect finish. Created with a keen eye on quality, our furniture includes high spec features such as soft-close doors, our mirrors are EN certified and CE marked, while furniture edges are rounded for extra safety.

STYLE THAT LASTS

At Heritage, we want all our taps and showers to perform as beautifully as they look. That's why we are happy to test them to their limits in our very own United Kingdom Accreditation Service (UKAS) testing laboratory. Certified to the same standards as a forensic lab, we rigorously put every design through its paces to guarantee a bathroom that's made to last. Take our taps, for example. Built to exceed British regulations, our taps are tested to five times UK water pressure, while our showers are put through the equivalent of 130 years of daily use.

Showering

WHY GO WITH THE FLOW?

Showers don't have to be a purely practical thing; they can be sumptuous and inspiring too. What better way to start the day than being fully enveloped in the warmth of a cascading premium shower? And, then of course, there's the look. Whether you've got your heart set on a traditionally exposed shower, or you prefer a more modern recessed style, you'll find a design and an experience perfectly suited to you. Pair with flexible riser kits or one of our gorgeous, fixed heads for a luxurious showering experience. All that's left to do is complement it with matching taps for a flawless bathroom finish.

Small Spaces

MORE THAN A LITTLE INSPIRATION

You don't need to have a large bathroom to create a statement. All our designs work beautifully in more compact spaces too. Even our Oban and Buckingham freestanding baths come in smaller sizes so you're free to create a look that you really want, not a compromise. And because our range also includes small-scale corner and baby basins, corner and wall hung WCs, you can lavish some love and attention across en suites and cloakrooms too - not just your family bathroom.

FINISHING TOUCH

Conceal unsightly pipework with glistening standpipes and shrouds matched to your brassware. Choose standpipes for baths without tap holes and shrouds for deck mounted taps and mixers. Both can be cut to size to fit your bath height.

ACRYLIC BATHS

What makes a Heritage acrylic bath so revolutionary? It's quite simply an effortless combination of strong, rigid construction combined with a light-touch finish. This means they're as tough as nails, but easy to manoeuvre - with no floor reinforcements needed. What's more, with an extra layer of insulation, you're free to lie back, relax and soak for longer. Whether you're looking for boutique styling or classic simplicity, we'll help you find a look you'll love.

HOW TO BUILD YOUR FURNITURE

Are you looking for a sleek and stylish solution to storage issues in your bathroom? Then look no further than our new and improved range of beautiful fitted furniture.

Available in three on trend shades and with a variety on simpler sizes to make choosing the right combination of individual pieces easier than ever.

MEASURE YOUR SPACE

Start by carefully measuring your bathroom. Knowing how much room you have is a vital first step in the journey to redesigning your space. Take note of pipework and think about how doors will open near your new furniture, so you can make sure it will fit into the space you've got.

CHOOSE YOUR STORAGE

Finished measuring up? Now it's time to decide what sort of storage you need, balancing functionality with style.

BASE UNITS

Base units are units that fit onto the floor. There are several options to choose from including cupboards with single or double doors, open storage units or a set of three handy draws.

INCLUDING BASINS AND BACK TO WALL WCS?

If you want to get even more out of your fitted furniture choose from our vanity and WC units that are suitable for semi-recessed basins and back to wall pans from our Claverton (p56), Dorchester (p61) and Granley (p67) suites.

WALL UNITS

As the name suggests, these units are wall mounted and have a similar selection of options to base units but with the added feature of units that sit onto your worktop to create a framing effect for your furniture. You can also make the most of small spaces by opting for a mirrored wall unit combining an essential bathroom mirror with storage.

SELECT YOUR EXTRAS

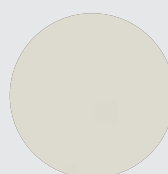

At Heritage we've thought of the important extras that really make your bathroom come together. We have gable ends (decorative panels) to neaten furniture that is not enclosed by a wall, plinths to complete base units and hide untidy pipework and much more!

Got a little extra space? Don't worry we also offer filler panels to fill gaps around your furniture.

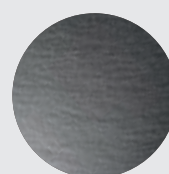

Looking for something special? Our new bridge and cornice options mean you can create a truly enviable vanity area - you can even add lighting for the perfect place to prepare for the day ahead.

CHOOSING YOUR COLOUR

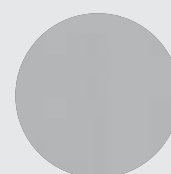

The Caversham fitted furniture range is available in three different colour finishes.

EXPLAINING WATER EFFICIENCY

There are over 60 million people living in the UK, using on average 150 litres of water per day for washing, cooking and drinking. Improvements in lifestyle and new technologies within the domestic environment mean we use 55% more water than we did 25 years ago, with half of this being used within the bathroom environment.

As climate change takes a greater hold on the environment we understand it is essential for us all to use water wisely. At Heritage we appreciate how important it is to save water and that's why we have designed selected products to optimise water usage in the bathroom.

You can now tell how much water a product uses in normal domestic conditions by looking for the Water Label. A green indicator flag shows that a product uses the least amount of water whereas a red flag indicates that a product uses more water; however this gives you a greater flow from your taps and showers for a faster filling basin or bath and more invigorating shower.

You can find a complete explanation of the European Water Label and how it works at: www.europeanwaterlabel.eu

USEFUL INFORMATION

BATHS

Acrylic baths

Reflectivity of materials may vary, in some light conditions the white may look a little different.

Heritage bath panels are designed to go with Heritage baths, a 1700mm panel for a 1700mm bath etc. White plastic bath panels are a fixed height and when used in conjunction with one of our baths, allows the bath trap to be installed above the finished floor in most cases.

Cast iron baths

Cast iron baths are still made in the traditional way which includes a degree of surface ripple, dimples and minuscule black specks in the interior. This is all part of the character of a cast iron bath giving a feeling of uniqueness in your bathroom. The exterior of our cast iron baths come smooth and pre-primed ready to paint. This isn't the finished article though and may suffer minor wear and tear en route to you. It will be instantly restored when you paint it in your chosen colour.

BASINS, WCs & BIDETS

Each piece of sanitaryware is individually made which means dimensions given are always 'approximate' within standard industry tolerances. If precise measurements are required then you must measure the actual pieces when they are delivered and plan your bathroom around them.

Every effort is made to ensure our sanitaryware is straight and level, and our standards are significantly higher than those set out in the current British Standards. However, when used on furniture, for example, there will be situations where an inexact basin will meet a perfectly straight worktop and sealant will need to be applied to fill any inconsistencies, ensuring a stable fit and sealing the furniture from water ingress.

The lifetime guarantee on sanitaryware extends to the ceramic pieces only. The cistern fittings are guaranteed for 5 years.

The inlets on our ceramic cisterns vary depending on the product. Please contact our customer service team for more information.

HERITAGE LOGO

The word Heritage is used as a hallmark to denote a genuine Heritage product.

TAPS & SHOWER VALVES

Heritage taps are designed to be compatible with Heritage sanitaryware and baths. A 1 taphole basin mixer will be suitable for any 1 taphole basin, the few exceptions to this rule will be highlighted in the directory section.

The majority of Heritage taps and shower valves have been engineered to operate on low pressure making them compatible with all UK plumbing systems. The minimum operating pressure for each tap and shower valve is stated in the directory for you to confirm compatibility with your installer.

Measuring tap spout projections

Spout projection measurements refer to the dimension from the centre of the body to the centre of the spout.

BRASSWARE FINISHES

Chrome is an extremely durable plated finish which is applied to a variety of fittings in a consistent manner and features a 5 year guarantee. Special finishes, including Vintage Gold and Rose Gold, are more delicate so when applied to high use fittings such as taps and showers, or a plated finish we use on shower kits, hoses and accessories, feature a 3 year guarantee only.

Close inspection may show some colour variation which is normally acceptable given the relative distance between individual fittings when installed.

FURNITURE

Our Caversham fitted furniture is produced using a real wood veneer, and as such will feature natural grain variation.

Our Caversham freestanding furniture is a combination of oak and real wood veneer and as such, every individual piece features a unique grain.

WC seats and hinges must be regularly maintained and correctly cleaned using non-corrosive or abrasive cleaning products.

Worktops are supplied in varying lengths. Please measure and select carefully. Please also take care when cutting worktops; worktops are not made from solid wood and by cutting them you will expose the edge.

Wall mounted furniture in the Caversham range is not freestanding and is designed to be wall-mounted.

FURNITURE FINISHES

Our furniture is available in a choice of finishes. Walnut is a stained wood finish, while all other colours are painted. While we endeavour to ensure consistency, you may see some slight variation in the colour. You may also notice some variation in the grain of the wood.

Our coloured finish furniture has the following Pantone references: Graphite 433U, Cool Gray 1U. Our RAL references are 7047 for Dove Grey and 7016 for Graphite.
